NEAR THE CROSS Near the Cross, B.J., 8; Song-Book,

Jesus, keep me near the Cross,
There's a precious fountain,
Free to all—a healing stream—
Flows from Calvary's mountain.

In the Cross, in the Cross, be my glory ever:
[Till my raptured soul shall find rest beyond the river.

Near the Cross, a trembling soul, Love and mercy found me; There the Bright and Morning Star, Shed His beams around me.

Near the Cross, O Lamb of God, Bring its scenes before me;
Help me walk from day to day
With its shadows o'er me.

we can give this week is on gath-ered from an International Army publication, on the above subject.

The General, who is particularly anxions that Salvationists everywhere should preserve the attitude of those whose trust is implicitly placed in God, says:-

To cach Salvationist comes the charge:

Impress upon every individual around you the all-important claims of God. Be faithful in your testimony, and be careful to avoid the excitements which unit for that persevering toil of such high value in these days of turmoil and uncertainty.

Be patient. Think about others as well as yourself, remember the families and relatives of those who are called to take up arms.

Do not selfishly hoard up either food or money. There is no neces-sity for any such course. Watch against waste of every kind, espe-cially in regard to those things which can be useful to others.

A Blind Salvationist.

The cheerful testimony of one of our blind comrades should cause our blind comrades should cause many to reflect a little before com-plaining over the minor trials and vaxations of fife. Born at Iroquois, Ont. Brother Rose, when just a mite of four, had the misortune, while playing around a stove, to set light to his clothes, resulting in severe burns and the loss of both year. When older he was sent to a large college for the blind, and some years later graduated with a certificate for teaching, and also received a diploma for medicine.

For not the hearers of the law are just bethe hearers of the law are just be-fore God, but the doers of the law shall be justified. For when the Centiles which have not the law do by nature the things contained in the law, these having not the law are a law unto themselves." We ought to rejoice in the oneness and loyalty of the British Empire, and I believe that this union on the battle field of different races may be very effective in breaking down prejudice of caste and class, which has been so great a hindrance in the Mission Field.

CHAPTER XIII.

A DISASTROUS NIGHT.

N the afternoon of Sunday, December 10, 1899, about three o'clock, Lord Methuen gave the order to advance. and the force which was meant to open up the way for going through the lines of Magersfontein, moved out on its fatal enterprise. The Highland Brigade was made up of four of the smartest regiments in the comice and with them in the 'advance went a body of cavalry. mounted infantry, and artillery. The rain came down in torrents, and when the troops were about three miles from the enemy's position they biyouncked on the cold, rainsodden ground, with one blanket hemained wat when o clock in the morning, and then, drenched, and without a morsel of food, they went out into the darkness to attack those terrible entrenchments.

As they moved forward in the sileace of the night smid the nelting rain Sergeant-major Bryce was almost shoulder to shoulder with Lord Ayrton. The two men grasped each other's hands, and Bryce whispered in the officer's car, "Remember, I am near you, sir. and we'll fight to the end like true Bordermen." No further word passed hetween these two at this time, as silently that gallant, ill-fated brigade passed forward on its mission of death. Dark clouds scurrled low in the heavens, and the blinding rain made the darkness of the night more fearsome, and the passage of the way more difficult

Surrounded by Peril,

Who shall say what thoughts surged through the minds of the soldiers as they advanced through the night? Every man there knew the peril which surrounded them; hut no coward hearts beat within the breasts of the men of the Highthe breasts of the men of the High-land brigade. On and still on they went, eagerly, anxiously, and cau-

It may have been the message of a Boer scout, or the firing of a gun in the ranks or the noise of some soldier ranks, or the noise of some soldier tripping over an obstacle in the dark, It may have been any, all, or none of these things. Whatever the cause, all at once in the darkness there crashed a roar of fire, and the blackness of night was affame with the blinding flash of the Boer rifles. Just before this volley came the had been given to extend, but the men had not had sufficient time to carry it out. The storm of bullets e upon the head and right flank of the column, and it was shattered and broken.

Major-General Wauchone was one of the first to fall, but he stag-gered to his feet again, and then fell to rise no more. Those who were nearest to him have said that this brave man's last words were: a pity! What a pity!" In the Entanglements

By this time men were going down in hundreds, and a wild hawl of rage and agony burst from the throats of the frantic Highlanders. As the men fell, some dead, some wounded, great numbers were knocked down by the terrible rush of the broken ranks. It was a ftorrible affair, and a sight never to be forgotten by those who lived through it. The remnant of the brigade, tearing itself free from the dead and

On Friday the Dewan visited the Catherine Booth Hospital, and the Territorial-Commander was present there, and the doctor and his help-ers took the Dewan round the hosnital and he was delighted with all he saw and heard of the great work that is being carried on in this hos-nital. After this inspection the Dewan visited the Territorial Headquarters and the Girls' Boarding School. He had the Territorial Com-mander by his side on his motor carand drave down to the Territorial and drove down to the Territorial Headquarters. The Dewan was taken round Headquarters and the Girls' School. He was much delighted with the reception given him, also with what he saw and heard. The Staff was introduced to the Dewan.

This is unfortunate, as the crops on low-lying land near the river will be seriously damaged. The Government has sanctioued

our usual Boys' Industrial School grant of sixty rupees per month for grant of sixty rupees per month for another year, and on application have also passed a grant of four hundred and forty rupees for pur-chase of looms and recling machines for the same Institution, to bring it on to date

We receive a nunicipal grant of twenty rupces per month for the School, and on the recommendation of one of the Municipal Commis sioners who called in a short time ago, and gave a personal donation of twenty rupees, we have applied

of twenty rupees, we have applied for an increase in the grant. Our Arbour Day report shows, over cleven thousand trees, includover eleven thousand trees, includ-ing shrubs and castors, have been planted; while from our innsery in Bareilly this season we have sold 630 mulberry plants, 1,500 mulberry enttings, and 200 cucalyptus trees in

pots.
The Government P Board Itas very kindly san a grant ds the cost ells for our villages. The of hity rupees eas, of sinking two clis for our poor people i dilages. The above amounts esents about half the expense, the people themselves, amounting the

It is difficult to realize what a boon it will be to them to have their own well. Under the present con-ditions, they are dependent on the ditions, they are dependent on the little water they can beg from the easte people, as they draw their supply from the village well, which, of course, the poor are not allowed to touch for fear of contamination. We finished the third well some time we haished the third well some time ago-and it is quite a success. It certainly is a pleasure to feel that one is able to secure a little help for
